

NEXT-GEN EXERGAMING

STEP MANIAX

Step up to the stage and show your skills as you move to upbeat, catchy, and energetic music. Utilize the large touchscreen display to easily navigate the game, select music, and adjust player options without the need to memorize complex button combinations or codes.

Durable design utilizes a compact form factor while being engineered with the highest of performance standards. Unique and modern hardware requires minimal operator maintenance while simultaneously retaining precise sensitivity and functionality.

Over 80 songs provide a wide selection music genres. Operators have the ability to control the song list via built in song management and add additional music through internet network downloads* without having to replace hardware.

Track individual progress and scores using the free Smartphone App and your mobile device.
